ROLLER TEAM

An Italian reality dedicated to plein air tourism

WHERE ENTREPRENEURIAL SPIRIT AND TECHNOLOGICAL APPROACH HAVE ALLOWED TO REACH EXCELLENCE AT INTERNATIONAL LEVEL

A **brand recognised** for features such as dynamism and innovation, which conceives and manufactures motorcaravan that combine style with technology and quality for unforgettable travel experiences. Roller Team is close to the customer everywhere with excellent service. There are hundreds of qualified outlets that distribute the **Roller Team** brand today: a comprehensive sales network spread throughout the major European countries. It's thanks to its distribution partners that Roller

Team **is close to its clientele everywhere**, ready to satisfy customers' every requirement with appropriate tools and a wide range of pre-sale and aftersales services.

An **organised, targeted network**, product development in keeping with the habits and needs of different cultures, distribution agencies in the area, staff from the area: these are the secret weapons with which Roller Team presents itself on international markets with growing success.

WHY CHOOSING ROLLER TEAM

WHY CHOOSING

A MOTORCARAVAN FOR EVERYONE

Roller Team offers a wide selection of models to meet the needs of any customer. The variety of the offer involves all types of motorcaravans and their interior fittings. The offer of models, organised into ranges, is able to meet the different and growing needs of the customer with an increasingly rich product.

A MOTORCARAVAN THAT IS ALWAYS UP TO DATE

The constant technological innovation of the production processes together with a continuous renewal of the product, with cutting-edge technical-constructive solutions, allow us to offer a very high quality pro-

duct capable of lasting over time at a competitive price. Roller Team responds to the needs of life in a motorcaravan with devices and solutions that make your stay on board pleasant while travelling and parking.

A MOTORCARAVAN EASY TO LIVE IN

The interiors are conceived and designed to be functional. Solutions that respond to everyday needs and allow you to experience every space with maximum comfort and simplicity. Environments that can be transformed by simple gestures to offer a different service, yet adapted to different needs. All the rooms offer everything - from small details to more sophisticated solutions - that simplify and improve life on board.

The certainties

MORE INSULATION, MORE PROTECTION, LESS NOISE

The Roller Team vehicles are well insulated and quiet, thanks to EXPS Evo technology, which guarantees absolute protection as regards insulation. High-performance insulation materials, quality construction techniques, specialised production departments with one goal: the best customer comfort, everywhere and for a long time.

SUITABLE FOR ALL SEASONS

Roller Team uses technologies and materials that ensure high performance and a perfect climate. To always feel comfortable inside the vehicle regardless of the outside temperature. The Italian with "Nordic" features.

UNDER CONTROL

Roller Team I puts its own experience and expertise at the service of every customer. A team dedicated to quality control and continuous improvements follows each vehicle throughout the production stage with inspections and tests from design to delivery. In safe hands.

AS YOU LIKE IT

Easily customise your vehicle to suit your needs. Roller Team offers additional packs and accessories that adapt perfectly to the individual models increasing their versatility, optimising their functionality and boosting their performance.

ACCOMMODATES THE UNEXPECTED

An interior design and distribution for rooms characterised by ergonomics, practicality and functionality. The interior can be adapted to every need. Flexible spaces and variable volumes. Garages made properly, insulated, protected, washable, accessible and easy to load. Convertible rooms for every crew or holiday need.

10-YEAR WARRANTY

10-year warranty against infiltration. The quality of production processes, technological innovation and choice of materials provide value over time.

The Roller Team offer

KRONOS

YOU WILL EASILY GET USED TO THE PLEASURE OF TRAVELLING
Start exploring the world.

The **Kronos range** is ideal for enjoying leisure time without giving anything up. Discover a new way of getting to know the world and living your leisure time, with cosy environments, thoughtful design and practical, rational space solutions. The world at your fingertips
all the comfort of home with a double floor

GRANDUCA

A motorcaravan with an elegant design, modern interior, trendy colours and precious finishes. The unique technological solutions that transform travel style into top living comfort, safety and absolute reliability. The **Granduca range** is designed for the most sophisticated motorcaravan owners who love beautiful and safe vehicles. A selected range of low-profile vehicles in three versions on FIAT mechanics.

Some features of the vehicle shown do not correspond to the final features for the current season.

WHY CHOOSE GRANDUCA

• A MOTORCARAVAN FOR EVERYONE

- 3 low-profile models on Fiat mechanics.
- 3 bed types: double, twin beds, garage bed.
- Length 7.45 m.

MOTORCARAVAN THAT IS ALWAYS UP TO DATE

- Hail-resistant fibreglass body.
- Anti-condensation system.
- Technical double flooring.
- Heater 6 kW.
- 100% LED lighting.
- Audio diffusion in the sleeping area.
- USB sockets.

A MOTORCARAVAN EASY TO LIVE IN

- Refined and convertible environments.
- Expandable folding table or 360° rotating table.
- Possibility of separating living and sleeping areas.
- Toilet and separate shower.
- Convertible twin beds.
- Insulating soft touch fabric roof.
- Floor trapdoors.

GRANDUCA

DOUBLE FLOORING GALLERY

Flooring The height of the two surfaces, 38 mm for the living unit floor and 20 mm for the lower floor, provide greater **thermal** and **acoustic insulation**.

1
Through-floor maxi-garage
550 l

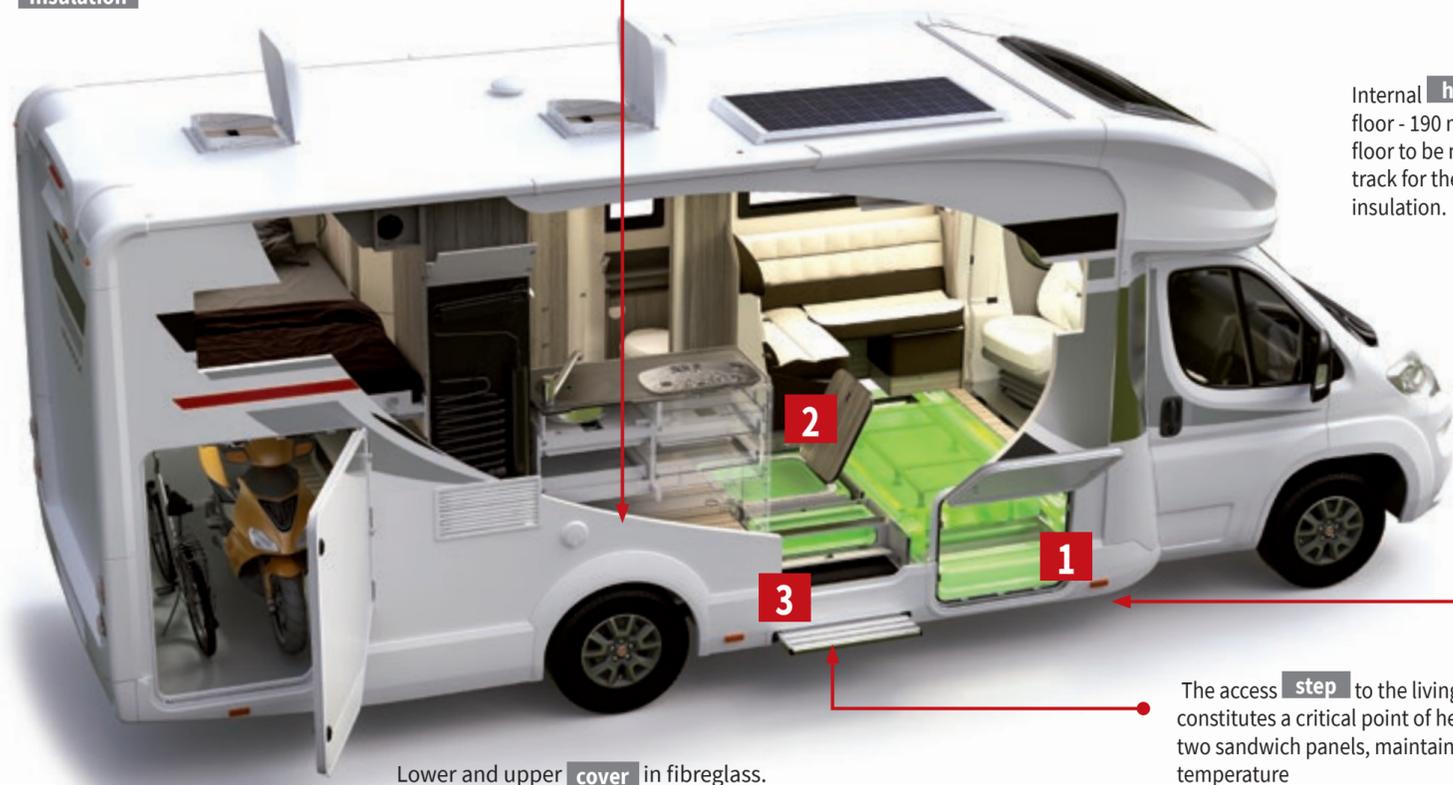

2
Floor hatch
105 l

3
Shoe holder with door
35 l

Thermal and acoustic
Insulation

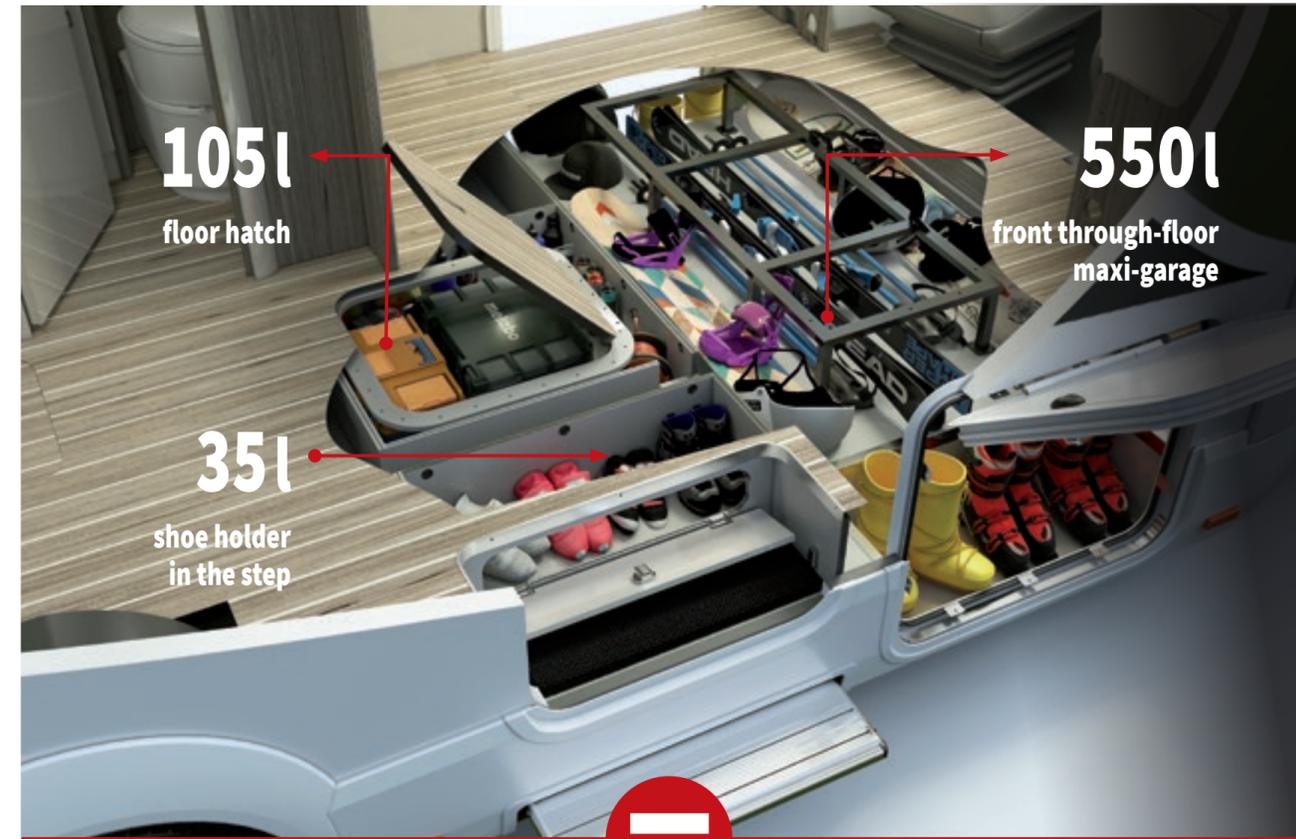

Lower and upper **cover** in fibreglass.

The access **step** to the living unit no longer constitutes a critical point of heat loss thanks to the two sandwich panels, maintaining the desired internal temperature

Internal **height** for the double floor - 190 mm - allows the living unit floor to be moved away from the track for thermal and also acoustic insulation.

Double flooring a lot of stowage for a great journey

690 l of available space

LARGE SPACE AVAILABLE IN THE DOUBLE FLOOR THAT ALLOWS EASY LOADING BOTH FROM THE INSIDE AND FROM THE OUTSIDE.

The **maxi-garage** is **through-floor** at the front, with a capacity of **550 l**. At the entry of the living unit, in the access step, there is a comfortable **shoe holder** of **35 l**. Inside, the double flooring is accessed through the **floor trapdoors** with a capacity of **105 l**.

The Granduca double flooring is designed to make great holidays with great usability of space, ensuring ample stowage and protection.

The structure is composed of two floors, an upper floor that constitutes the plane of the cell, and a lower floor. The two levels are divided by aluminium supports **that guarantee at the same time lightness and stability.**

GRANDUCA

FIAT DUCATO 140 HP EURO 6D LIGHT DUTY

FIAT

COMFORT

- STANDARD CAPACITY 3500 KG
- START&STOP
- CRUISE CONTROL
- RADIO PREPARATION WITH DAB AERIAL
- PLEATED SLIDING FLYSCREEN
- USB PORTS IN SLEEPING AREA
- THERMAL CAB BLIND
- 220 V SOCKET IN THE GARAGE
- CP-PLUS CONTROL PANEL
- **TRUMA COMBI 4 GAS HEATER**
- AUDIO DIFFUSION IN THE LIVING UNIT
- **AUTOMATIC THREE-WAY 145-LITRE REFRIGERATOR WITH 2 DOORS**
- **DOUBLE TECHNICAL FLOOR**
- **FLOOR HATCHES**
- ELECTRIC STEP

SAFETY

- ABS
- DRIVER AND PASSENGER AIRBAGS
- REAR VIEW MIRRORS WITH DEFROSTER
- FIX&GO KIT
- LIVING UNIT XL DOOR WITH 1 LOCKING POINT

STYLE

- WHITE CAB
- 15" STEEL WHEEL RIMS
- PAINTED BUMPERS
- SOFT TOUCH ROOF
- SEITZ WINDOWS
- GREY SIDES
- REAR LED LIGHTS

The Advance version is only available for low-profile with elevating bed and low-profile models.

ROLLER TEAM CERTAINTES

On a carefree journey; you will always be protected and safe, in every season.

ROLLER TEAM VEHICLES ARE SAFE, WELL INSULATED AND SILENT, THANKS TO THE EXCLUSIVE EXPS EVO TECHNOLOGY THAT ENSURES INSULATION AND INTERNAL PROTECTION FROM BOTH EXTERNAL TEMPERATURES AND NOISE.

Noise Reduction Technology.

The furniture features protection with soft material for furniture-outer body connection. A plastic spacer separates the lower floor from the chassis rail.

ROOF. Hail-resistant external fibreglass. Internal fibreglass. PVC frame to protect the most critical contact areas. The use of this material prevents the formation of thermal bridges inside the compartment which can be the cause of condensation or heat loss. Waterproof plastic inner structure.

WALLS. External fibreglass, hail-proof, PVC frame and waterproof plastic inserts. High density perimeter protection in plastic: prevents any contact between inside and outside avoiding the inlet of water inside the walls. Fibreglass internal walls, resistant to humidity and free of thermal bridges that can be the cause of condensation or heat loss.

FLOOR. Lower fibreglass cover for greater heat insulation and mechanical resistance. The fibreglass underbody offers better protection from external erosion and wear, protection from impact of stones or asphalt gravel, protection from salt on the roads, protection from humidity. Floor structure in waterproof plastic with a high thickness of 54 mm: greater structural resistance and maximum impact resistance. The extruded perimeter protection, resistant for greater load capacity, prevents thermal bridges and water absorption. Abrasion-resistant non-slip PVC lining.

10-YEAR WARRANTY

QUALITY AND VALUE OVER TIME.

That is why **ROLLER TEAM** created **BODY CONSTRUCTION INTEGRITY WARRANTY**, the warranty that gives you 10 years of peace of mind with your motorcaravan. We want our customers to trust their **ROLLER TEAM** as much as we do.

By choosing a **ROLLER TEAM** motorcaravan you join the 10-year **BODY CONSTRUCTION INTEGRITY** programme.

It is a prolonged warranty programme against infiltration by carrying out regular maintenance at the authorized sales network.*

*For the detailed conditions ask the authorised sales network.

MADE TO BREATHE

A healthy, well-ventilated and condensate-free environment at all times, thanks to Breathe technology

THROUGH THE STUDY OF AIR CONDITIONING AND INDOOR AIR CIRCULATION ROLLER TEAM INTRODUCES THE MOTORCARAVANS THAT "BREATHES"

BOTTOM OF MATTRESSES

made of technical, quilted breathable fabric

EXCELLENT CIRCULATION

of indoor air

PERIMETRIC VENTILATION

Anti-condensate panels spaced from the wall itself

HEATER

all-round in models with twin beds

THE SLATTED BASES

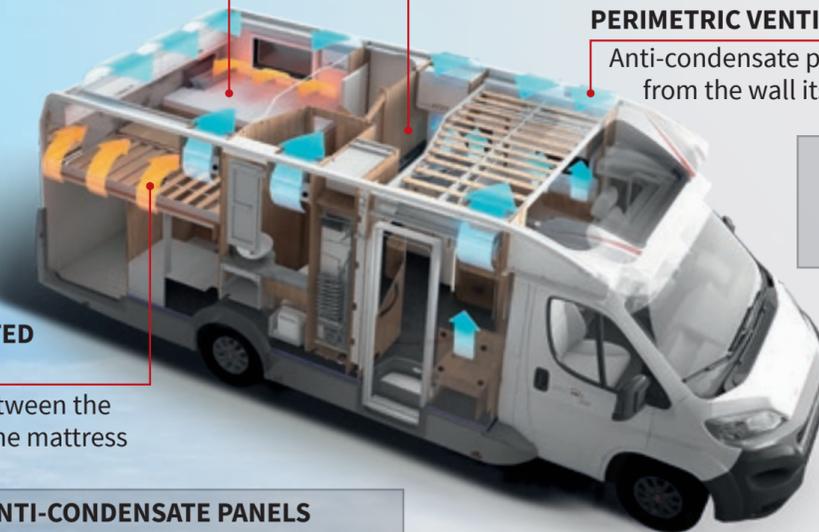

air pass between the base and the mattress

ANTI-CONDENSATE PANELS

living and sleeping areas

HEATER

Additional overcab vents

ALWAYS PERFECT TEMPERATURE

Relax, we'll care about the right temperature.

To make you feel **comfortable inside your motorcaravan**, whatever the temperature outside, Roller Team offers the technology you need! Every Roller Team vehicle uses technologies and materials that ensure high performance and **a perfect climate at all times.**

- Thermal windscreen (motorhome)
- Electric heated floor
- Diesel, gas and or electric boosted heater

Winter holiday included. Enhance your comfort on board still further with genuine accessories.

Available in the WINTER PACK:

- Insulated tank
- Insulated step
- Insulated pipes

Greater thermal insulation thanks to the technical **double floor** (available only on Grandduca range). The height of the two floor surfaces (38 mm floor cell and 22 mm lower floor) and the internal height of the double floor of 190 mm allows the living area floor to be moved away from the roadway for greater thermal insulation. The tanks placed inside the double floor are less exposed to cold and external agents.

Some features of the vehicle shown do not correspond to the final features for the current season.

DISCOVER
SUITABLE
FOR ALL
SEASONS

THE WHOLE WORLD IN THE GARAGE

There's room
for all the travels
you ever dreamed of.

Those with big projects need their space. Roller Team garages have all the space you need to make your dreams come true, up to 300 kg of independence! (technically loadable weight affecting the approved seats or the remaining total payload; internal height up to 1430 mm depending on models).

THE ROLLER TEAM GARAGE DONE PROPERLY:

- Double maxi-garage access door, 180° opening.
- Pass-through loading compartment accessible from both sides.
- Up-and-down bed system for flexible spaces and loads
- With air vents.
- Lower fibreglass cover and PVC cover
- Double lock in each rear door for added security.

BECAUSE WE KNOW THAT SATISFYING OUR CUSTOMERS DEPENDS GREATLY ON THE QUALITY OF OUR PRODUCTS.

Roller Team puts its own experience and expertise at the service of every motorcaravan produced and follows it throughout the production stage with inspections and tests from design to delivery that meet with European standards. The same quality standards are demanded of suppliers: for the most strategic components, a check is carried out when the material is received and before it is used in production.

1

Tests in research and development and prototyping stage

- Specific testing in climate chamber to check the resistance, duration and performance of the materials selected at extremely high/low temperatures.
- Performance tests on the components used: durability of mattresses, resistance to stress, reliability and compliance with European regulations in the design of the seatbelt unit.

2

Checks in production stage

Correct installation of the hydraulic systems.

Check on operation and correct installation of the electrical systems.

Test on operation of the gas pipes.

3

Test on finished product

Waterproofing tests on 100% of the vehicles produced, before delivery.

check

100 statistical checks on a percentage of the vehicles produced: aesthetic, functional, noise and fitting tests.

Electronic weighing of 100% of vehicles before delivery and written weight certification for end customer.

Chassis

It is equipped with the FORD EcoBlue 2.0 TDCi engine, available with 130 and 170 HP, which improves performance and reduces CO₂ emissions.

Equipped with a wide range of technologies designed for **a safe driving in all situations.**

16" rim wheels.
Cruise Control.

DAB aerial provision

SEATS

Cab seats adjustable and rotatable by 180°, with integrated armrest and headrest, to find the right position for driving or standing. Radio with steering wheel controls. In the cab there is plenty of space for bottles, mobiles and maps or guides.

OPTIONAL

Six-speed automatic transmission for a relaxed driving experience (not available for chassis 4,100 kg)

SPECIFICATIONS

- ▶ Specific frame for motorcaravans with lowered centre of gravity for better access to the cell.
- ▶ Steel frame with side members and crossbars, flat and resistant, allows a perfect arrangement of the living unit.
- ▶ Extended rear track for greater road stability and interior living comfort.

ABS to prevent the slightest loss of control.

AIRBAG standard driver and passenger airbags.

ASR anti-skid system to limit loss of wheel grip.

ESP electronic stability programme for correct vehicle set-up.

FIAT Chassis

Created from the continuous cooperation with manufactures, FIAT Ducato is the perfect combination of chassis and living unit.

Euro 6D Final

120 PH / 140 PH / 180 PH

ELECTRIC POWER STEERING SYSTEM

The electric power steering system replaces hydraulic system on whole range. Moreover, the electric steering system offers:

- ▶ Power supply technology adapts steering effort to vehicle speed.
- ▶ Increased steering precision.
- ▶ Higher driving pleasure, while reduces effort during parking maneuvers.
- ▶ Improves fuel consumption and reduce CO₂ emissions thanks to the adaptive energy consumption.
- ▶ Keep current steering ratio.
- ▶ Engine bay is freed from former hydraulic power steering specific parts.

ESC Electronic Stability Control

On the Ducato, the system has 3 features:

- ▶ CROSS WIND ASSIST. Through the use of brakes, intervenes to help stabilize the vehicle through strong crosswinds, helping to keep the vehicle from drifting out of its lane.
- ▶ TRAILER STABILITY CONTROL SYSTEM. Detects when a trailer is starting to oscillate and corrects any dangerous trailer swing, through a combination of either torque reduction and/or individual wheel braking.
- ▶ POST COLLISION BRAKING SYSTEM. Intervenes in the event of an accident, automatically applying brakes to prevent secondary potential collisions.

MANUAL CAB CLIMATE CONTROL

Enhanced and diffused ventilation to the entire cab.

Chassis CITROËN Jumper

STANDARD EQUIPMENT

- ▶ Manual cab climate control
- ▶ ESP
- ▶ Cruise Control
- ▶ Double Airbag
- ▶ Electric heated door mirrors
- ▶ Height-adjustable seats with double armrest
- ▶ Chrome-plated instrument panel
- ▶ Dashboard USB socket + cup holder
- ▶ Radio preparation with DAB aerial
- ▶ CITROËN chrome front grille

... it's also van

For over 15 years Roller Team has also been a van specialist. Discover the Livingstone range in the catalogue dedicated to Roller Team Van.

This catalogue does not represent contractual documentation, rather only general information. Trigano S.p.A. reserves the right to change the features and fitting of any of its models without prior notice; all data contained in this brochure is therefore to be considered as indicative and non-binding. For the above reasons, all information relating to the specifications and equipment of each model must be requested prior to purchase from the dealer, who, as the sole contact person, will confirm or correct the data published by updating the customer on the characteristics and actual equipment of the relevant vehicle being negotiated. Despite careful content checks, possible printing and/or translation errors cannot be excluded. This catalogue does not constitute contractual documentation. Any reproduction, even partial, of the text or contents of this document is prohibited. The weights given in this catalogue are for reference only. Tolerances of +/- 5% are permitted. In general, special equipment and optional extras increase unladen weight and lead to a reduction in payload. We disclaim all liability in the event of structural modifications made to the vehicle; any assembly, disassembly or modifications carried out at unauthorised workshops may endanger your safety and also lead to the voiding of warranty clauses. For more information on installation and technical details, please contact the authorised sales network.
